Fastrack to Unveil On-Line Adjudication for HME Providers at Medtrade

Plainview, NY....In response to a new requirement from certain payers and significant benefits in working with others, Fastrack will unveil at the Fall Medtrade show a version of its' On-Line Adjudication module for HME providers. The feature has been available from Fastrack Healthcare Systems for over 14 years as part of the company's Fastrack Home Infusion Pharmacy system.

Fastrack's Online Adjudication application, which is NCPDP D.0 compliant, communicates directly with 1000's of PBM programs to process real time billing of medications and virtually any product with a valid NDC including; enteral, diabetic and urological supplies. Providers receive an immediate response at the time of dispensing regarding eligibility for coverage, patient responsibility, copay amounts and payment information.

According to Spencer Kay, President/CEO of Fastrack, "The module improves cash flow by billing at the time of dispensing with no additional EMC transmission processes necessary for these types of items. On-line adjudication, similar to what is common in retail and infusion pharmacy software, is becoming a requirement for certain products by some payers. Fastrack is pleased to once again establish an industry first with the release of this module for Home Medical Equipment providers."

The module comes with extensive reporting capabilities, functionality to track the prescription and utilizes the Medispan drug database which provides the NDC numbers, product descriptions and the AWP. The On-Line Adjudication works in conjunction with the Fastrack HME Enterprise System that manages virtually every aspect of the providers business including; patient intake, billing, cash

posting/collections, equipment maintenance tracking warehouse automation/inventory control, the routing of the delivery vehicles, retail operations, e-commerce storefront and more.

Fastrack Healthcare Systems is the leading supplier of software & technology to Home Medical Equipment providers, Durable Medical Equipment and Respiratory Providers, Home Infusion Pharmacies & Home Healthcare Agencies. Only Fastrack offers a solution for each individual segment of Home Care as well as one system encompassing virtually every clinical, operational and financial aspect of a provider's business, automating several or all of these product/service lines within one integrated Microsoft SQL database.
